# CANDY, PEARL AND COLORSHIFT

## THE GROUND COAT DOES THE WORK

How effect colors are built

@thespraysource

# CANDY IS TRANSLUCENT

## SPRAY IT OVER THE GROUND COAT

Candy pearl basecoats come ready to spray

@thespraysource

# CANDY OVER A METALLIC BASE

## THE METALLIC GIVES THE DEPTH

Apply it over a metallic basecoat

@thespraysource

# EVEN COATS, EVERY TIME

## UNEVEN SHOWS LIGHT AND DARK

Consistent, even coats are critical with candy

@thespraysource

# MIDCOAT CANS ADD EFFECT

## NOT COVERAGE

Light coats, about 25% coverage, 5 to 15 minutes between

@thespraysource

# SPRAY THE REQUIRED GROUND COAT

## BLACK UNDER DARK AND CANDY

Gray under most colors and under white

@thespraysource

# TRI-STAGE OEM COLORS

## UNDERCOAT, COLOR, CLEAR

The undercoat sets the tone the color sits on

@thespraysource

# CANDY GUN PRESSURE

## 20 TO 25 PSI

Too high: thin. Too low: chunky

@thespraysource

# SEE IT FIRST

## CUSTOM COLORS: PAINTED SAMPLE

Custom colors only. Then blend into the surrounding panels

@thespraysource
