PAINT YOUR GUITAR

WITH A SPRAY CAN KIT

Body only, start to finish

@thespraysource

INSPECT THE BODY

PROPERLY SANDED AND PREPPED

The kit covers the body only, not the neck

@thespraysource

CLEAN OFF DUST AND OILS

ISOPROPYL ALCOHOL OR SPRAYWAY

No dust or finger oils left

@thespraysource

SCUFF UNTIL FLAT

GRAY SCUFF PAD, EVENLY SCRATCHED

Poor prep means poor adhesion

@thespraysource

SEAL WITH 1K EPOXY

1 LIGHT, 5 MIN, 1 WET

Shake 45 to 60 seconds. Wait 1 hour after dry to the touch

@thespraysource

BASECOAT: 2 TO 4 COATS

10 MINUTES OR UNTIL MATTE

Bursts and metallics: a light control coat last

@thespraysource

2K CLEAR: GLOSS OR MATTE

2 TO 3 WET COATS

Activate the 2K can first: pull the ring and bar, turn 360

@thespraysource

CURE 8 HOURS

12 BEFORE POLISHING

Flip every can upside down and spray until clear

@thespraysource
